Medical/Clinical Science Liaison Performance: Presence, Quality & Skills

HIRC's Medical/Clinical Science Liaison Performance report benchmarks 40+ leading pharmaceutical MCSL teams based on managed care customer evaluations of MCSL skills and overall quality. The report provides insights into critical MCSL success factors, as well as customer perspectives and expectations. The report addresses the following questions:

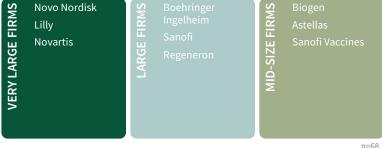

- Which very large, large, and mid-size pharmaceutical firms rank highest in MCSL presence and quality scores?
- How do manufacturers benchmark across ten MCSL core and consultative competencies?
- Which skills are most important to customers and what opportunities exist for improvement?
- How do pharmaceutical firms benchmark in engagement and quality ratings across health plan pharmacy director, health plan medical director, and pharmacy benefit manager managed market segments?

Key Finding: Leading MCSLs are expected to be true experts in drug therapies, demonstrate an understanding of customer needs and priorities, and share pipeline insights and emerging drug therapies.
